### NEED A REFRIGERATING PLANT

Congress Asked for Additional Government Hospital Funds. The Secretary of the Treasury has transmitted to Congress a communication from the Secretary of the Interior, submitting additional estimates for the fiscal year ending June 30, 1901, for improvements at the Government Hospital for the Insane, amounting to \$49,000.

One of the estimates is for the construction of a central store house and refrigerating plant, for which \$25,000 is asked. The additional sum of \$17,000 is asked for the construction of a building for acute disturbed cases.

In a supplemental report urging the erection of a refrigerating plant the board of visitors to the hospital have said that the conditions at present make necessary the delivery of supplies at more than half a dozen locations, necessitating as many independent custodians. It is said that this renders it practically impossible to have reliable supervision of their reception, and the result is that there is not such accurate identification of the delivery of supplies as the large amounts and varied character make desirable. The same is said to be true of their distribution to the various departments of the hospital.

With so many points of distribution and so many persons independently responsible for their care, it is very difficult for one central authority to exercise the necessary supervision to ensure economy and uniformity in their distribution.

It is claimed that a central store building, with a department for each class of supplies, concentrated in one place, and bakery and under charge of a custodian, would in large part obviate the difficulty mentioned and would make possible a report at stated intervals of the receipts and distributions to every department of the hospital.

The Government Hospital for the Insane paid out for ice during the fiscal year 1899 the sum of \$2,444.53. The cold storage for meats, milk, and butter, and for fresh fruits, has been inadequate to the needs of the hospital. It is said also that this plan is unsatisfactory, and it is estimated that with a proper ice making and refrigerating plant ice could be manufactured to meet every want of the hospital at one-half this annual expense.

### MR. CANNON MAKES AN APPEAL

Anxious to Have Miss Gould Suspend Her Motion Picture.

NEW YORK, Dec. 15.—George Q. Cannon, Mormon leader and former United States Senator from Utah, is making vain appeals to Miss Helen M. Gould to suspend her contention against the Mormons.

Miss Gould has been a leader in the women's crusade against the seating of Roberts in Congress. She has spent thousands of dollars in the cause. She has paid for printing, for postage, for the rent of halls, and the expenses of the speakers. Scores of scurrilous letters are in her daily mail, but they never reach her. Her private secretary puts them in the fire. Among these letters are several from Mr. Cannon. These, of course, are not accurate.

Mr. Cannon is a leader among the Latter Day Saints. He stands next to President Snow in authority and is known as a shrewd diplomatist.

When he was elected to the Senate a determined attempt was made to prevent him taking his seat on account of his Mormonism, but it failed. In these letters Mr. Cannon pleads eloquently for his Church.

"If you knew the truth about it you would be his friend," he writes. "The Mormon Church has been misrepresented and unjustly accused in the eyes of the public. The Mormon people deserve your kindest sympathies."

"I do not wish to make any statements regarding the letters received from Mr. Cannon," Miss Gould said. Her intimate friends declare that the gentleman from Utah is wasting time and postage stamps in making appeals to her.

### To Decrease Immunity.

Senator Fairbanks of Indiana will seek to amend the immigration laws of the United States relative to the insane. He has introduced a bill the purpose of which is to exclude all persons who have been confined in an asylum for the insane, or have been insane before landing in the United States, or who shall within two years after arrival in the United States become insane, unless it shall affirmatively appear on special inquiry that such insanity is due to causes arising after their arrival.

### For a National Military Park.

Representative Richardson of Tennessee has introduced a bill to establish a national military park at the battlefield of Stone's River. The purpose of the bill is to preserve and maintain the battlefield of Stone's River, and to erect monuments and other structures to commemorate the battle.

### History of the Capital's Construction.

Senator McMillan yesterday submitted a paper to the Senate giving a history of the construction of the Capitol building, and secured an order that it be printed as a document and that 200 copies be bound in cloth for the use of the Committee on the District of Columbia.

### Homesteads for Spanish Veterans.

Senator Foster of Washington introduced a bill yesterday extending the soldiers' bounty provisions of the homestead land laws to the soldiers who served in the Spanish war and the insurrection in the Philippines.

### To Reimburse New York Indians.

Mr. Platt of New York introduced a bill yesterday in the Senate appropriating \$1,908,744 to pay the judgment of the Court of Claims in favor of the New York Indians.

### To Return Mexican Trophies.

The memorial of the Colorado Legislature praying for the return to the Republic of Mexico of cannon, banners, and other trophies captured by the United States forces during the war between the two nations was presented to the Senate yesterday by Mr. Teller of Colorado.
